D5.1 – INNOBUYER POOL OF INNOVATION PROCUREMENT EXPERTS
30/09/2024

DELIVERABLE D5.1

INNOBUYER POOL OF INNOVATION PROCUREMENT EXPERTS

o	Title	o	InnoBuyer pool of innovation procurement experts
o	Work package	o	WP5
o	Task	o	T5.1
o	Due date	o	30/09/2024
o	Submission date	o	30/09/2024
o	Deliverable lead	o	CIVITTA
o	Version	o	1
o	Authors	o	Lucas de Bont
o	Reviewers	o	Filipa Sousa, Anna Torz
o	Keywords	o	Expert pool, mapping

DISCLAIMER

o Project co-funded by the European Commission in the Horizon Europe Programme		
o Nature of the deliverable:	R	
o Dissemination Level		
o PU o Public, fully open, e.g. web		x
o CL o Classified, information as referred to in Commission Decision 2001/844/EC		
o CO o Confidential to DAPSI project and Commission Services		

o   * R: Document, report (excluding the periodic and final reports)

o   DEM: Demonstrator, pilot, prototype, plan designs

o   DEC: Websites, patents filing, press & media actions, videos, etc.

o   OTHER: Software, technical diagram, etc.

TABLE OF CONTENTS

1. INTRODUCTION

The purpose of the deliverable is to showcase the Export Pool that InnoBuyer has mapped to support its challengers in the formation of ToR following the pilot period. In total the Expert Pool has 54 experts and each Challenger´s country is represented. The expert pool will be made available to InnoBuyer Challengers upon request, and trough the InnoBuyer newsletter with consent of the expert organisations.

2. METHODOLOGY

2.1 ELIGIBILITY CRITERIA

To ensure the experts can deliver the required value to the Challengers, the Consortium have used a set of quality requirements. As outlined in the Grant Agreement, experts must demonstrate a thorough understanding of public procurement regulations, the legal frameworks governing intellectual property, and the specific challenges of innovation procurement in the public and private sectors – as well as be available to InnoBuyer projects upon relatively short notice. These have been verified trough the consortiums previous interactions, published case studies, client portfolio and testimonials, LinkedIn/external links, and specific mentions of relevant procurement and IP legislation.

2.1.1 Additional location considerations

In order to increase availability and relevance of the experts, the InnoBuyer consortium has looked at the distribution of projects per country. From Table 1 it can be seen which countries needed at least one representative, and that Spain should have more to remain accessible. Germany is overrepresented in the expert group because a lot of experts have premises and expertise there.

Country	Project	Country representation in InnoBuyer projects	Country representation in expert pool	Experts in pool
Spain	PREPLEX BLOODMANSYS Earlydel FHARMAVERSO MOTINN AI 4 JUSTICE Honey.AI EndoPath	50,00%	24,07%	13
Netherlands	MDR-prep HomeRUN	12,50%	11,11%	6
France	NAIAD	6,25%	14,81%	8
Germany	PurEVOO	6,25%	25,93%	14
Lithuania	OptiDrive	6,25%	1,85%	1
Poland	Safe-stay	6,25%	9,26%	5
Romania	Access4All	6,25%	3,70%	2
Sweden	EV-NEXT	6,25%	1,85%	1

2.2   MAPPING PROCESS

Over the course of Action 3, each partner has utilized its existing networks, databases, and contacts to identify eligible experts for the pool. These have further been validated by the other consortium partners. The level of familiarity between consortium partners and procurement experts ensures a good level of quality.

2.3   MISSING EXPERTISE

In cases where InnoBuyer projects demand specific expertise outside of the Expert Pool, the consortium will assign extra efforts to help find, assess, and engage experts. Alternatively, expertise will be brought on from other countries.

3. EXPERT LIST

Organisation	Country
Almodovar y acociados	Italy, Portugal
Andre hiranda e associados	Portugal
